

This catalogue has raw data collected by an RBR Concerto³ C.T.D.

The raw data has been exported to ASCII using Ruskin v2.16.2.202110081903 and the data can be found in the RUSKIN catalogue. There is one zip file for each station.

Original file	Station
STA001.rsk	001
STA002.rsk	002
STA003.rsk	003
STA004.rsk	004

Note that some of the raw files contains data from more than one station. The data in the RUSKIN catalogue has been edited, and each zip file has only data from one station. The original rsk files has not been modified.

The 'CTD-position.csv' file has position and time for start and stop for each station.
